Water Management Division
61 Forsyth Street, S.W.
Atlanta, GA 30303-8960

Section 303(d)(1)(C) of the Clean Water Act (CWA), 33 U.S.C. §1313(d)(1)(C), and the U.S. Environmental Protection Agency’s implementing regulation, 40 CFR §130.7(c)(1), require the establishment of Total Maximum Daily Loads (TMDLs) for waters identified by states as not meeting water quality standards under authority of §303(d)(1)(A) of the CWA. These TMDLs are to be established levels necessary to implement applicable water quality standards with seasonal variations and a margin of safety, accounting for lack of knowledge concerning the relationship between pollutant loading and water quality.

Waterbody Name	Station ID	§303(d) List Pollutants
Scott Creek, headwaters to SC-34	SC-S-044	Fecal Coliform Bacteria

A copy of the proposed TMDL can be obtained through the Internet or by contacting Ms. Cole at (404) 562-9437 or via electronic mail at cole.sibyl@epa.gov. The URL address for the proposed TMDL is: <http://www.epa.gov/region4/water/tmdl/tennessee/index.htm#sc>.
